About me

Digital Design student and **Creative Developer**

based in Kortrijk. I work at the intersection of design, technology, and interaction – turning complex ideas into clear, engaging digital products across Figma-to-code workflows, React front ends, and real-time experiences.

I like complicated problems
– because I like solving them.

My skills

01 Visual Design + UX/UI

Figma, Photoshop, Illustrator, After Effects, Miro, prototyping, branding

02 Web Development

HTML, CSS, JavaScript, React, React Router, GSAP, Git, MySQL, ml5.js, mobile-first

03 Realtime & Backend

WebRTC, Socket.IO, Node.js, Express, Supabase, CI/CD

Languages

Bulgarian (Native)

English (Fluent)

Russian (Fluent)

Education

● Devine – KASK Howest

Digital Design and Development
Kortrijk, Belgium

Sep 2024 – Present

● High School of Mathematics “Dr Petar Beron”

Varna, Bulgaria

Sep 2018 – May 2023

Highlighted projects

The Beauty of Transgression

Dev · Solo · MoMu Museum

- Interactive experience on Walter Van Beirendonck with micro-interactions and GSAP storytelling.

Used: Stack Figma, Photoshop, HTML, CSS, JavaScript, GSAP

See more ↗

MemoMe – Discover Antwerp

Lead Dev · UX/UI · Team

- Location-based web app for travellers exploring Antwerp via map pins, QR collectibles, and travel diaries.
- Owned memo CRUD, media upload, geocoding, auth, journals, and GSAP motion on React Router v7 + Supabase + Leaflet.

Used: Stack React, Router v7, GSAP, Supabase, Leaflet, Figma
